PROFESSIONAL SUMMARY

Mid-Level Java Developer with 3+ years of professional commercial experience designing, developing, and maintaining scalable enterprise applications. Strong expertise in **Java (8/11/17+), Spring Boot and REST APIs**, complemented by solid frontend skills in **React, Angular and TypeScript**. Proven track record of leading legacy-to-modern migrations (JEE to Spring Boot), implementing CI/CD pipelines, writing comprehensive unit tests, and delivering production-ready solutions on Linux/Docker environments. Comfortable working in Agile teams, mentoring colleagues, and continuously improving development processes.

PROFESSIONAL EXPERIENCE

Java / Fullstack Developer — September 2022 - Present

ASTEK Polska · Warsaw, Poland

- Design and implement new backend systems in **Java & Spring Boot**, supported by comprehensive **JUnit** unit testing and automated **CI/CD pipelines**.
- Lead service migrations from legacy **JEE** to modern **Spring Boot** application, improving maintainability and deployment speed.
- Develop and maintain full-stack applications using **Java (Spring Boot)** on the backend and **Angular / TypeScript** on the frontend.
- Build and consume **REST APIs**; integrate with relational Oracle database.
- Manage **Linux** server deployments, maintenance, and DevOps operations using **Docker** containers.
- Provide consulting and conduct internal **training sessions**, mentoring junior developers and improving team efficiency.
- Automate repetitive workflows using **AI-powered tools, MCP servers** and custom Python scripts, reducing manual effort and engineering toil.

TECHNICAL SKILLS

Languages	Java 8 / 11 / 17+, TypeScript, JavaScript (ES6+), Python, SQL
Backend	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST API, WebSockets, JavaMail, Gradle, RabbitMQ
Frontend	React, Angular, TypeScript, JavaScript, Mantine UI, HTML5, CSS3, Responsive Web Design
Databases	Oracle 21c, PostgreSQL, SQLite
DevOps & Cloud	Docker, Linux (Ubuntu / RedHat), Oracle Cloud Infrastructure (OCI), CI/CD pipelines (Jenkins, GitHub Actions), Bash scripting
Testing	JUnit, Unit Testing, Integration Testing, Test-Driven Development (TDD)
Tools	Git, BitBucket, GitHub, Jira, Confluence, IntelliJ IDEA, VS Code
Methodology	Agile, Scrum, SAFe, Code Review, Pair Programming, Mentoring

SELECTED PROJECTS

MeowHub - Social Media Platform (Engineering Thesis)
Full-stack social network with Spring Security authentication, real-time chat over **WebSockets**, a user-matching module, mail notifications, and image storage on **Oracle Cloud Infrastructure**. Designed REST API and relational data model from scratch.
Tech: Java, Spring Boot, Spring Security, WebSockets, React, TypeScript, Oracle 21c, OCI Object Storage, REST API

NLP Benchmark Platform (Master's Research)
REST API service that runs configurable benchmarks against NLP models, with a companion VS Code extension for speech labeling/annotation that feeds the evaluation pipeline.
Tech: Python, REST API, NLP, TypeScript, VS Code Extension API

Reimbursement App - Travel Expense Management
Internal application for processing employee travel expense reimbursements, with role-based workflows and approval logic.
Tech: Java, Spring Boot, React, TypeScript

Personal Developer Portfolio
Single-page portfolio site showcasing projects and skills, built with a modern React component library and deployed via GitHub Pages.
Tech: React, TypeScript, Mantine UI

EDUCATION

Master's Degree in Computer Science (In Progress) — 2025 - Present
Polish-Japanese Academy of Information Technology (PJATK), Warsaw

Bachelor's Degree (Engineer) in Computer Science — 2021 - 2025
Polish-Japanese Academy of Information Technology (PJATK), Warsaw

- Specialization: **Database Systems**

INTERESTS

Artificial intelligence & machine learning applications, game development, digital art and drawing, home cooking, heavy metal & rock music, football.

I hereby consent to my personal data being processed for the purposes of the recruitment process (GDPR / RODO).
