Passionate Fullstack Developer with 3+ years of professional experience in building modern web applications. Specialized in Java (Spring Boot) backend development and React/TypeScript frontend solutions. Focused on creating scalable, maintainable, and efficient software while continuously improving processes and mentoring team members.

Projects

MeowHub - Social media platform (Engineering Thesis)
Technologies: React, TypeScript, Spring Boot, Oracle 21c, Java

Reimbursement App - Travel expense reimbursement application
Technologies: React, TypeScript, Java

Bookstore (TIN_Project) – SPA with session management
Technologies: React, Spring Boot, SQLite

Work Experience

Java/JavaScript Developer | ASTEK Polska
September 2022 - Present | Warsaw, Poland

- Design and implement new systems supported by comprehensive unit testing and CI/CD pipelines
- Lead service migrations from legacy JEE to modern Spring Boot architectures
- Develop and maintain full-stack applications using Java (Spring Boot) and JavaScript (React)
- Manage Linux server deployments, maintenance, and DevOps operations with Docker
- Provide consulting and conduct internal training sessions to enhance team efficiency
- Automate workflows using AI-powered solutions and custom scripts, reducing manual effort

Education

Master's Degree in Computer Science (In Progress)
Polish-Japanese Academy of Information Technology (PJATK)
2025 – Present | Warsaw, Poland

Bachelor's Degree (Engineer) in Computer Science
Polish-Japanese Academy of Information Technology (PJATK)
2021 – 2025 | Warsaw, Poland
Specialization: Database Systems

I hereby consent to my personal data being processed for the purposes of the recruitment process.
